PROFILE

Advanced Informatics undergraduate with one paid WordPress customization assignment and two paid technical exercises for Voxgig. Interested in web support, scoped PHP/WordPress changes and functional testing. Academic and personal projects with Laravel, Python, Django, React and SQL.

PAID ASSIGNMENTS

WordPress Customization | First Cognition, through Upwork

One assignment. November 2025 - January 2026.

Customized a blog and articles plugin to match the client's reference design.

Technical Exercises | Voxgig Ltd

Two paid tasks. October 2026.

Generated a TypeScript SDK using Voxgig tooling, verified the generated suite and checked API behavior. Completed a critical Jostraca review with reproducible examples. Individual technical tasks, not formal employment.

GitHub: SDK and developer experience report

Other paid work: three photo-editing assignments with Adobe Photoshop through Upwork.

ACADEMIC AND PERSONAL PROJECTS

Reference Cards | PHP, WordPress, HTML/CSS

Assisted portfolio lab. Published-article shortcode with category filters, bounded queries, escaped output and integration checks in real WordPress.

albadawidev.github.io/wordpress.html

CasePilot | Python, SQLite, JavaScript

Local support-ticket demo with permissions, history and validated, transactional CSV import. HTTP/frontend tests, source and runnable setup instructions included.

github.com/AlbadawiDev/casepilot

PaySub | PHP, Laravel, React, SQL

Plans, subscriptions and manual payment-report review. Role/ownership checks, private receipts and tests. Portfolio demo without a payment gateway.

github.com/AlbadawiDev/PaySub

Also: VeriCred (Django certificate approval and QR verification) and UDO thesis/service-order projects. Walkthroughs and limits in the portfolio.

SKILLS

WordPress, PHP/Laravel, HTML/CSS, JavaScript, React, Python, Flask and Django.

SQL: MySQL, PostgreSQL and SQLite. Git, REST APIs and Adobe Photoshop.

Functional/manual QA: bug reproduction, regression checks, validation and documentation.

EDUCATION AND LANGUAGES

Licenciatura en Informática | Universidad de Oriente, Núcleo Sucre

2022 - present. Advanced undergraduate. Degree in progress.

Spanish native | English B1 | Arabic spoken, limited writing
