

Daniel Samir Al Badawi Aazar

Junior Web Developer | WordPress & Functional QA

Cumaná, Venezuela (UTC-4) | Available immediately | Remote work / open to relocation
albadawi.dev@gmail.com | +58 424 836 0302
albadawidev.github.io | github.com/AlbadawiDev | LinkedIn

PROFILE

Advanced Computer Science student with a paid WordPress plugin-customization project through Upwork. Academic and personal work with PHP/Laravel, Python, React and SQL. Focused on web support, feature implementation, functional testing and clear technical documentation.

PAID FREELANCE EXPERIENCE

WordPress Developer | First Cognition, through Upwork

Nov 2025 - Jan 2026

Customized a blog and articles plugin to match the client's reference design.

Additional paid Upwork assignments: photo editing with Adobe Photoshop.

SELECTED ACADEMIC AND PERSONAL PROJECTS

CasePilot | Python, SQLite, JavaScript

Local support-ticket demo with role permissions, assignment, deadlines, activity history, CSV exports and documented integration tests.

github.com/AlbadawiDev/casepilot

VeriCred | Python, Django, SQLite, QR

Certificate approval, issuance and revocation, public QR verification, audit history and restricted access to unpublished records.

github.com/AlbadawiDev/vericred

PaySub | PHP, Laravel, React, SQL

Subscription and payment-report workflows with manual review, role and ownership checks, protected receipts and documented tests. Portfolio demo.

github.com/AlbadawiDev/PaySub

UDO projects: thesis management (Java 21/Spring Boot, document reviews and reports) and a team service-order system (Flask/PostgreSQL, technician module and duplicate-ID validation). Portfolio walkthroughs and documentation.

TECHNICAL SKILLS

Web: WordPress, PHP, Laravel, JavaScript, React, HTML/CSS, Python, Flask, Django.

Data and tools: PostgreSQL, MySQL, SQLite, REST APIs, Git, GitHub, Adobe Photoshop.

Quality: manual and functional testing, regression checks, validation and bug documentation.
